REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior art fails to show or suggest a surface light-emitting device comprising a body outlining a light guiding space in the shape of a rectangular parallelepiped, a light source which supplies light through an incident plane formed on one of the sides of the light guiding space, the light exiting through a emission plane which intersects the incident plane at right angles, the body includes a light transmitting member which covers the emission plane and includes a light transmission plate and a prism, as claimed, the light transmission plate includes a diffusion filter which is a laminate in which a plurality of diffusion transmission films is layered and the number of film layers is greatest in the area close to the light source and gradually decreases as the distance from the light source increases so the light transmission is increased as the distance from the light source increases due to a decrease in diffusion of light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura Tso whose telephone number is 571-272-2385. The examiner can normally be reached on M-F 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
